

FOR IMMEDIATE RELEASE

ANALYTIC STRATEGIES AWARDED SEC QRADS IDIQ

Alexandria, Virginia, November 15, 2018 - Analytic Strategies, a wholly owned subsidiary of Culmen International, is pleased to announce that they have been awarded the Securities and Exchange Commission's (SEC) Quantitative Research Analytical Data Support (QRADS) – Channel 5 contract for Analytical Methods and Support.

SEC QRADS Channel 5 is a multiple award Indefinite-Delivery Indefinite-Quantity (IDIQ) contract with an estimated value of over \$5.6 million. The company's role in this effort will be to provide highly skilled technical expertise to assist SEC economists in developing text analytics capabilities, and any related support, such as: developing and writing project-specific programs to process data sets using modern econometrics methods, statistical modeling techniques, machine learning and statistical process; analyzing and interpreting statistical data; computing supporting metrics; producing and maintaining models or other analytical products.

Culmen International's President and Chief Operating Officer, Mr. Paul McQuillan, said of the award, "We are excited to assist the SEC in its mission to protect investors and maintain fair, and efficient markets. The award of QRADS further validates our leadership in Big Data Analytics, and software solutions in an enterprise environment."

About Culmen International

Culmen International is dedicated to enhancing domestic and international security, military readiness and support, technology enhancements and stability operations through facilitating global collaboration and optimizing capabilities of governments and partners.
