

FOR IMMEDIATE RELEASE

## For the 10<sup>th</sup> Time, Culmen International Earns Inc.5000 Fastest Growing Company Recognition

**Alexandria, VA, August 23, 2021**— Inc. magazine revealed that Culmen International has made its annual Inc. 5000 list, the most prestigious ranking of the nation's fastest-growing private companies. Established in 2004, Culmen International is a repeat honoree making the list for the 10<sup>th</sup> time. In the history of the Inc. 5000 less than 1% of all applicants have made the list 10 times! With an impressive two-year growth rate of 92%, Culmen ranks #143 among Government Services companies and #220 in the state of Virginia.

Not only have the companies on the 2021 Inc. 5000 been very competitive within their markets, but this year's list also proved especially resilient and flexible given 2020's unprecedented challenges.

"We are thankful to our talented employees, whose capability and work ethic has enabled us to achieve this recognition as an Inc 5000 10-time honoree", said Dan Berkon, CEO of Culmen International. "It is because of them that our customers continue to entrust us with meaningful missions that we are proud to support."

Culmen's customer base is comprised of the US Departments of Defense, State, Energy, Justice, Homeland Security, and Health and Human Services, as well as international partner countries. Culmen delivers a broad range of services that include Program Management and Technical Services, Global Procurement and Logistics, Training and Instructional Systems Design, Specialized Language and Culture Services, and Mission Oriented Technology Solutions such as Agile Software Engineering, Data Analytics, and Data Visualization.
